Professional Summary

AI/ML and Full Stack Engineer graduand with hands-on internship experience building **multi-agent LLM systems, RAG pipelines**, and enterprise full-stack applications. Proficient in **Spring Boot, Angular, LangChain**, and cloud-native **AWS/GCP** architectures. AWS AI Practitioner and Google Cloud Digital Leader certified. TryHackMe Top 4% globally.

Experience

Full Stack Engineer Intern

Feb 2026 – Present

Cognizant Technology Solutions

Chennai, India

- Contributed to a production **Spring Boot + Angular** platform, implementing microservices architecture patterns and enterprise-grade backend system features.
- Integrated and tested **AWS CI/CD pipelines** (CodePipeline, CodeBuild) and built automated API testing workflows using **Postman** in a real-world DevOps environment.

Information Technology Intern

Sep 2025 – Feb 2026

Y3 Technologies (Singapore)

India (On-site)

- Built a **multi-agent LLM system** for automated threat detection and PII classification on on-prem infra; fine-tuned domain-specific models for cybersecurity policy enforcement, **reducing manual triage by 40%**.
- Managed enterprise infra: **Windows Server, Active Directory, Group Policy, IAM**, and core network services.

Project Intern

Jun 2024 – Jul 2024

Indian Oil Corporation Limited

Chennai, India

- Built a **role-based network monitoring tool**; developed responsive UI (HTML/CSS/JS) and resolved IaaS proxy deployment issues.

Projects

Healthcare Revenue Management System | *Maven, Hibernate/JPA, Swagger*

Feb 2026 – Present

- Developed a **full-stack system** handling end-to-end revenue cycle workflows including patient billing, claims processing, and payment tracking.
- Architected with **microservices** using Spring Boot and Maven; built a responsive **Angular** frontend integrating with **RESTful APIs**.

Biomedical RAG Chatbot | *BioMistral-7B, LangChain, Qdrant, FastAPI*

Mar 2025

- Deployed a **RAG pipeline** with domain-specific embeddings, Qdrant vector DB for semantic search, and source-grounding via FastAPI to reduce hallucination on clinical responses.

Technical Skills

Languages: Java, Python, JavaScript/TypeScript, SQL, HTML5, CSS3, Shell, C

Frameworks & Tools: Spring Boot, Angular, React, FastAPI, REST APIs, Docker, Postman, Git, MySQL, PostgreSQL, Supabase, Bootstrap, JUnit5, Mockito

AI / LLM: Generative AI, RAG Pipelines, LangChain, LangGraph, NLP, Prompt Engineering, Qdrant, ChromaDB, RAGAS, Hugging Face, Ollama, OpenAI API, CrewAI, MLOps

Data Science: Pandas, NumPy, Jupyter Notebook, Streamlit, OpenCV

Cloud & DevOps: AWS (EC2, S3, Bedrock, Comprehend, Textract, CodePipeline, CodeBuild), GCP (Vertex AI, Gemini API, BigQuery), CI/CD, Microservices, Cloud Architecture, Linux/Ubuntu, Kubernetes, Helm, Rancher, Jenkins, GitLab, SonarQube, Trivy

Security: JWT/OAuth 2.0, Burp Suite, Nmap, Wireshark, OWASP ZAP

IDEs & Tools: Spring Tool Suite, IntelliJ, VS Code, PyCharm, Figma, Jira, Agile/Scrum

Education

Panimalar Engineering College

Thiruvallur, India

B.Tech – Information Technology | CGPA: 8.343 / 10

Oct 2022 – Mar 2026

Certifications

AWS: AI Practitioner AIF-C01 | **Google:** Cloud Digital Leader (GCDL) | **Oracle:** GenAI Certified Professional

Infosys: Applied Generative AI | **Cisco:** Junior Cyber Security Analyst | **Accenture:** Fundamentals of Artificial Intelligence

Awards & Achievements

IEEE Vice Chair - PECSB (2023–2026) | **IEEE YESIST12** Pilot Coordination Committee Vice Chair (2026) |

Crown Jewel of Excellence - Best Performer, IEEE Student Branch | **AI Geeks and RootSprout Community** Core Lead

6th Rank among 1,096 participants, PECTEAM 2K23 Intl. Conference | Led **150+ events** and multiple workshops collaborating with **1,200+ students** across universities
