Professional Summary

Final-year IT student and active **Cognizant** intern with hands-on experience building full-stack systems and LLM-powered applications. Skilled in **Spring Boot**, **Angular**, **RAG pipelines**, and cloud-native **AWS/GCP** architectures. **Google Cloud Digital Leader** certified; **AWS AI Practitioner** (exam pending). TryHackMe Top 5% globally.

Experience

Full Stack Engineer Intern

Feb 2026 – Present

Cognizant Technology Solutions

Chennai, India

- Building a **microservices-based healthcare revenue platform** using **Angular** and distributed **Spring Boot** backend services at production scale.
- Automated API validation across **12+ REST endpoints** using **Postman + Newman**; contributing to **AWS CI/CD pipelines** via CodePipeline and CodeBuild.

Information Technology Intern

Sep 2025 – Feb 2026

Y3 Technologies (Singapore)

India (On-site)

- Built a **multi-agent LLM system** for automated threat detection and PII classification on on-prem infra; fine-tuned domain-specific models for cybersecurity policy enforcement, reducing manual triage by **~40%**.
- Managed enterprise infra: **Windows Server**, **Active Directory**, **Group Policy**, **IAM**, and core network services.

Project Intern

Jun 2024 – Jul 2024

Indian Oil Corporation Limited

Chennai, India

- Built a **role-based network monitoring tool**; developed responsive UI (HTML/CSS/JS) and resolved IaaS proxy deployment issues.

VAPT Intern

Feb 2024 – May 2024

CyberWarriors

Remote

- Performed VAPT on web and network systems; strengthened skills in **secure coding**, network automation, and threat detection via custom Python scripts.

Projects

Biomedical RAG Chatbot | BioMistral-7B, LangChain, Qdrant, FastAPI

Mar 2024

- Deployed a **RAG pipeline** with domain-specific embeddings, Qdrant vector DB for semantic search, and source-grounding via FastAPI to reduce hallucination on clinical responses.
- Implemented **hybrid retrieval** and sentence-window chunking — improving answer coherence over fixed-size chunking.

Cross-Platform Social Media Data Extraction Tool | Python, Selenium | SIH

Project Lead | Oct 2024

- Led 6-member team to automate data capture across 5 platforms; reduced manual audit effort by **90%** with automated traceability pipeline.
